

The Spirit of the Lord come into the audience and just sapped my strength. And just as I started to go down, my brother run to me to catch me. And I looked; I seen Congressman Upshaw. And he'd been in meetings ever since he was a lad when he first fell and hurt himself. He wanted to be healed then by God. He listened to Mr. Roberts; he'd been in Mr. Freeman's meetings, Mr. Ogilvie, and many of them had prayed for him. Friends, I've got something to say along them lines after a bit. No matter how much faith you have, it'll never change the predestinated will of God. It's got to be by vision to see what happens. And as it started out, I seen him in a brown suit going down the street, tipping his hat to people like that. **I said, "Congressman Upshaw is healed in the Name of the Lord." There, after laying, been a crippled for sixty-six years, laying on a bed for many years, and rolled around in a wheelchair...**

There's a little fellow setting right here in this--under this church now. A few days ago... That man believes. A little old boy had a cancer on his ear, and he wouldn't say nothing about it. He's working up there at the house. I'd been on a hunting trip with him, up there with the Mosley brothers and Brother Dawson here. We was up here hunting. Brother William's son... And I happened to look over on his ear, and I seen his ear all swolled up. And I said, "What's the matter, Donovan, that ear?"

He said, "Brother Branham, it's been on there for a long time. I don't know." I just mis--caught him by the hand there. That was a big cancer on his ear. Never said one word, just held it. It was off my brother. In a day or two after that there wasn't even a scar left of it. It was his respect to the God of heaven by His quickening power killed that cancer and spared the life of Donovan Weerts back there. That's right. **EASTER.SEAL 65-0410**

What can your hands do?

The Praying Hands, located at the West entrance of the ORU campus, was cast as the largest bronze sculpture in the world measuring 60 feet tall and weighing 30 tons.

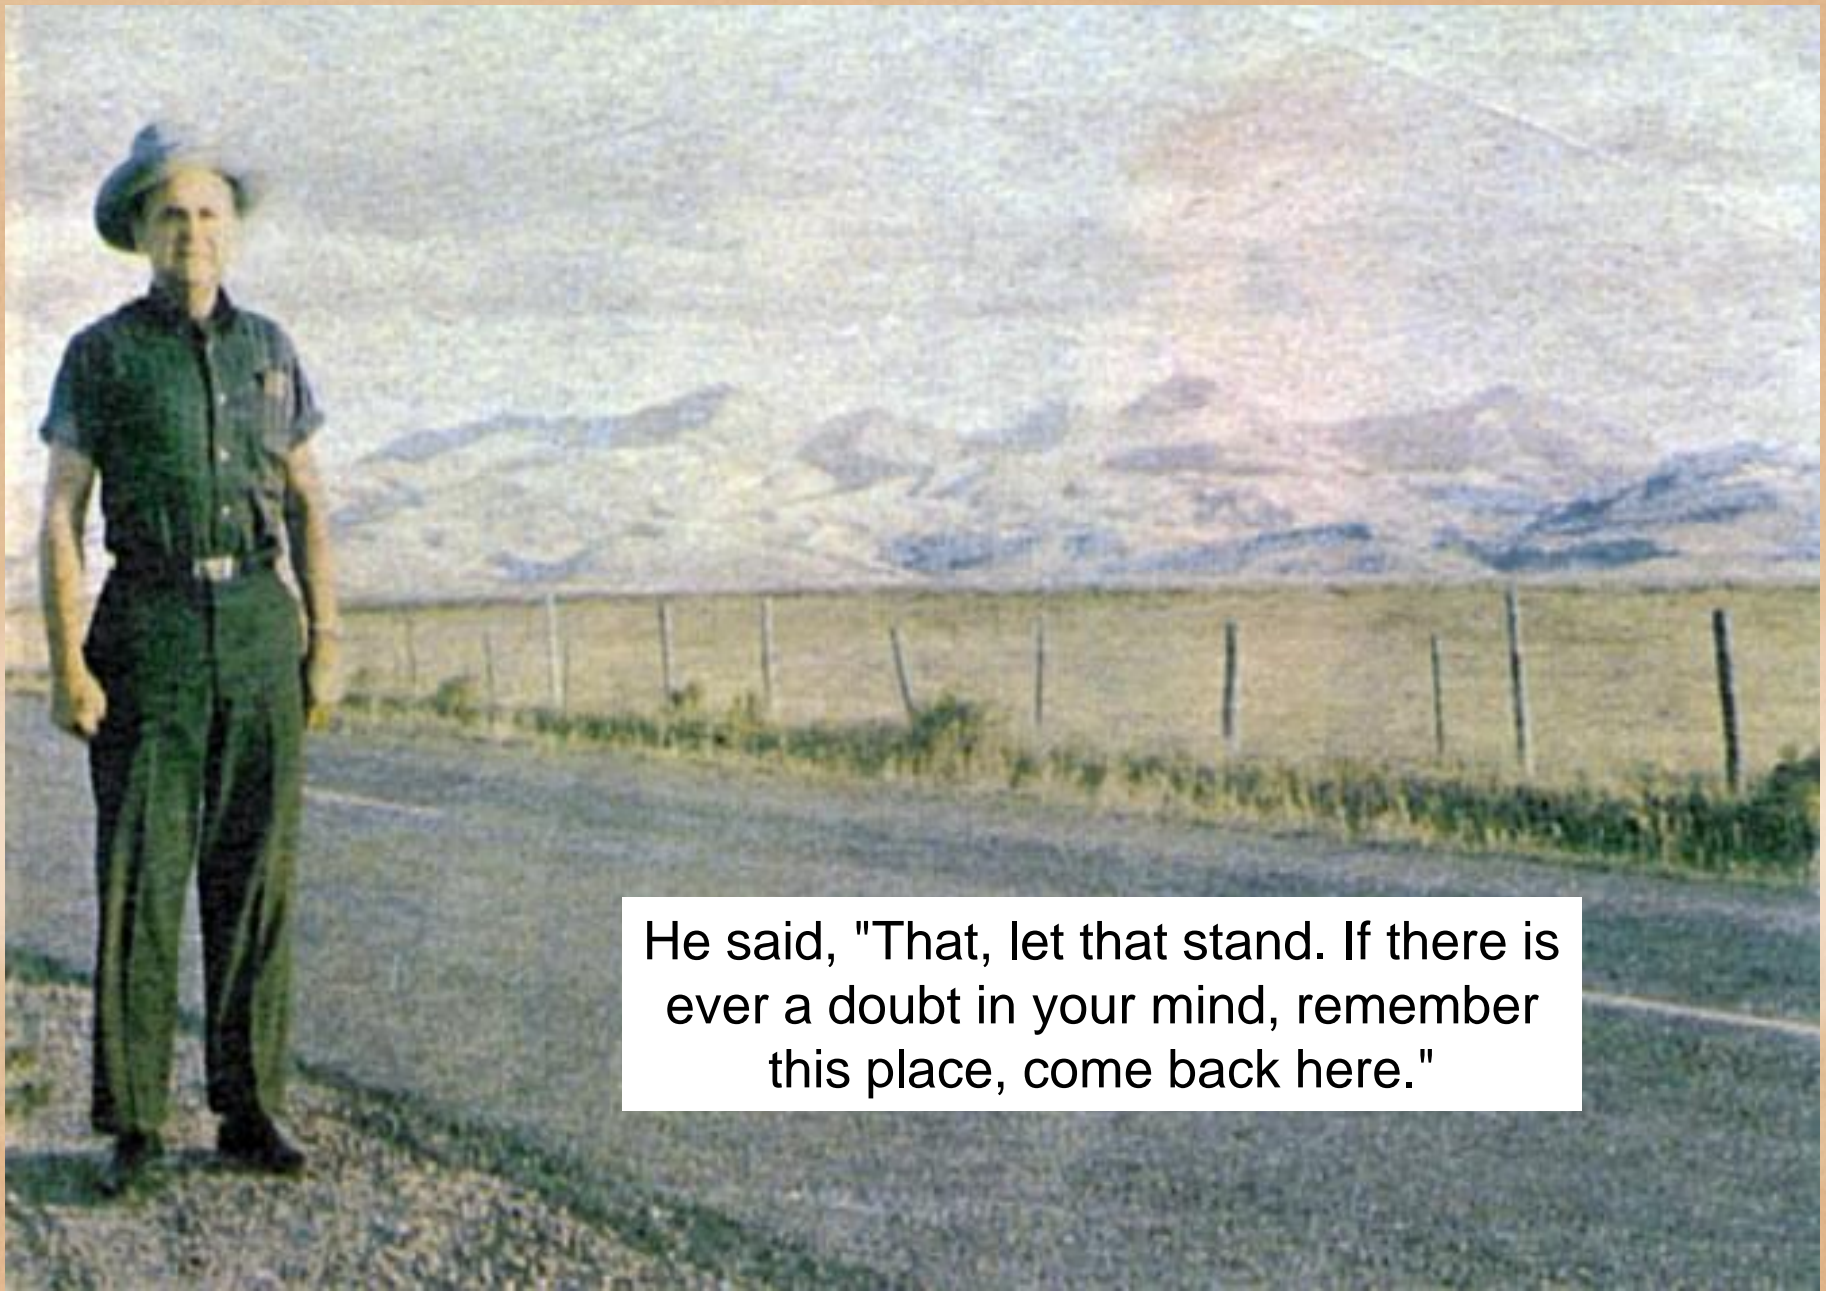

Your talents combined with our training can lead to monumental achievements.

undergraduate majors College Weekend
master's programs Nov. 4-6, 2005
doctoral degrees April 7-9, 2006
NCAA division I sports

He said, "That, let that stand. If there is ever a doubt in your mind, remember this place, come back here."

They stood there a little while, and walked up close to eat out of my hands almost, turned around and looked all at me, like that, and walked on off, stand and looked back again, walked right on out in the woods. And I was standing there. I thought, "That's unusual for deer. Wonder if it's because that the Lord Jesus is here, His Presence?" And just then a Voice spoke to me, said, "You remembered your promise, didn't you?" I knew it was Him. I said, "Yes, Lord." He said, "So do I remember Mine. I'll never leave you. I'll never forsake you." That burden lifted. Christian friends, it hasn't been back since. That was last October. I've been a different person. Keep your promise to God. Whatever you say to God, you believe it. Separate yourself from anything contrary to His Word. God will hear and answer prayer. Let us bow our heads just a moment.

Why is it God so thought and cared so much about that little place of Palestine, see, when it's just a little spot? But right in there is where the temple is set. That's where the New Jerusalem will break up, right there. "Olive, Mount of Olive shall cleave, part to the right and left," sure, when she pushes up from the beneath.

And now, Edith, Hattie's sister, that we know as the little girl that's been crippled up since she was a--a baby, and she's a woman now; and she's in very bad shape. Now, I... About a year ago I went down there, when she had her first spell, and immediately I found what her trouble was, by the help and grace of God. Now, really, what's the trouble with the child, she's setting; her limbs are hit together and she can't even move them apart. It's because of the tremendous pressure on the--the--the nerve system. But what it is, there's nothing physically wrong with the child, outside of the affliction of infantile paralysis, when she was about six months old. She screamed and cried all of her life, nearly, till we prayed for her many years ago, and--and she's been happy ever since, until about a year ago.
